INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the
SEIU Affiliates Officers and Employees Pension Plan - United States

Opinion

We have audited the accompanying financial statements of SEIU Affiliates Officers and Employees Pension Plan - United States (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2023, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023 and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2023, and the changes in its accumulated plan benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

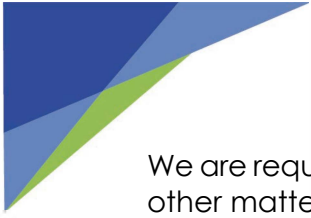

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of administrative expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

SEIU AFFILIATES OFFICERS AND EMPLOYEES PENSION PLAN - UNITED STATES

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2024 AND 2023

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the SEIU Affiliates Officers and Employees Pension Plan - United States (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit pension plan that covers employees of SEIU local unions and related organizations that have been approved for participation. Employees earning salaries of at least \$4,000 per year are covered. Benefits are based on age, accrued service and average salary during the highest 36 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In accordance with the Pension Protection Act for 2006 (PPA), the actuaries declared the Plan not to be in critical or endangered status at December 31, 2024.

Pension Benefits - For participants who are currently employed or have terminated participation after January 1, 1986, vesting requires three years of current service or vesting service; or 15 years of service credit with at least one year of current service. For vested participants active as of January 1, 1999, the normal pension is a monthly benefit equal to 2.5% of final average compensation times years of service credit. Early, disability and survivor benefits are also provided. Please refer to the Plan document for more details regarding benefits provided by the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The financial statements have been prepared using the accrual basis of accounting. Under this basis, revenue is recognized when earned and expenses are recognized when incurred.

Investment Valuation and Income Recognition - The fair value of the Plan's interest in the SEIU Pension Plans Master Trust (the Master Trust) Account is based on the beginning of the year value of the Plan's interest in the trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Investments in the SEIU Pension Plans Master Trust Account are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees (the Trustees) determine the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 6 for a discussion of fair value measurements. Purchases and sales of securities are recognized on a trade-date basis. Interest income is reported on

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

the accrual basis. Dividends are recognized on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer Contributions - Contributions receivable are stated at the amount management expects to collect from balances outstanding at year end. Based on a review of historical losses, current economic conditions and supportable and reasonable forecast assumptions, management has concluded that any expected credit losses on balances outstanding at year end will be immaterial. No allowance for credit losses is considered necessary.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Withdrawal Liability - During the year ended December 31, 2024, the Plan did not assess or record any withdrawal liability receivables or income. In the prior year, the Plan recognized withdrawal liability interest income of \$16,337, which is no longer outstanding as of December 31, 2024.

Administrative Expenses - Administrative expenses are paid by the Plan.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Reclassifications - Certain items may have been reclassified from prior years financial statements for comparability purposes.

NOTE 3. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect; however, to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

NOTE 3. PRIORITIES UPON TERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

NOTE 4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial valuations were made using the entry age normal actuarial cost method. The significant actuarial assumptions used in the valuations as of December 31, 2023 were:

- Termination rates - The assumed rates of voluntary termination reflect anticipated experience for the Plan's membership. Varying termination percentages (20.00-4.89) at various termination ages (20-60).
- Retirement age assumptions - weighted average assumed retirement age was 63 years.
- Net investment rate of return - 7.00% per year.
- Administrative expenses - \$2,075,000.
- Healthy mortality rates - 91.5% of the pri-2012 blue collar amount weighted mortality table (separate employee and annuitant tables) projected generationally with SSA2024 scale.
- Disabled mortality rates - healthy life (annuitant) mortality, with ages set forward 10 years.

The above actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. The Plan's actuary has determined the Plan has met the minimum funding requirements of ERISA through December 31, 2023.

NOTE 4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

Since information on the accumulated plan benefits at December 31, 2024, and the changes therein for the year then ended are not included, the financial statements do not purport to present a complete presentation of the financial status of the Plan as of December 31, 2024, and the changes therein for the year then ended, but a presentation of only the net assets available for benefits and the changes therein as of and for the year ended December 31, 2024. The complete financial status of the Plan is presented as of December 31, 2023.

NOTE 5. TAX STATUS

The Plan obtained its latest determination letter on July 10, 2013, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving that determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6. INVESTMENTS IN SEIU PENSION PLANS MASTER TRUST

The SEIU National Industry Pension Plan - United States, SEIU Affiliates Officers and Employees Pension Plan - United States, Pension Plan for Employees of the Service Employees International Union - United States, and the Pension Plan for Employees of the Service Employees International Union - United States (Canadian Segment) each contributed investment assets to a unitized combined investment account entitled SEIU Pension Plans Master Trust. Each of the four contributing pension plans has an undivided interest in the Master Trust.

The value of the Plan's interest in the SEIU Pension Plans Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Plan's interest in the net assets of the Master Trust was 1,178,873.73 units (44.23579%) and 1,178,873.73 units (43.71235%) as of December 31, 2024 and 2023, respectively. Total investment income (including net appreciation in the fair value of investments) of the SEIU Pension Plans Master Trust is allocated to the individual plans based upon ending monthly balances invested in each plan.

NOTE 6. INVESTMENTS IN SEIU PENSION PLANS MASTER TRUST (CONTINUED)

The following table presents the assets of the SEIU Pension Plans Master Trust as of December 31, 2024 and 2023:

	December 31, 2024		December 31, 2023	
	SEIU Pension Plans Master Trust Balances	Plan's Interest in SEIU Pension Plans Master Trust Balances	SEIU Pension Plans Master Trust Balances	Plan's Interest in SEIU Pension Plans Master Trust Balances
Short-term investments	\$ 48,238,639	\$ 21,338,741	\$ 38,065,220	\$ 16,639,201

Corporate notes and bonds	113,866,213	50,369,615	82,636,723	36,122,452
Common stocks	1,414,801,679	625,848,654	1,254,208,229	548,243,861
Common collective trusts	797,278,488	352,682,412	829,117,310	362,426,640
Insurance company pooled separate accounts	100,269,342	44,354,932	148,324,715	64,836,215
Limited partnerships	946,084,795	418,508,053	735,381,293	321,452,427
Other pooled funds	91,763,144	40,592,149	106,587,480	46,591,890
Total investments at fair value	3,653,029,173	1,615,946,196	3,304,941,301	1,444,667,430
Plus				
Accrued income	3,175,711	1,404,801	2,882,862	1,260,166
Total	<u>\$ 3,656,204,884</u>	<u>\$ 1,617,350,997</u>	<u>\$ 3,307,824,163</u>	<u>\$ 1,445,927,596</u>

The following are net appreciation in the fair value of investments and investment income for the SEIU Pension Plans Master Trust for the years ended December 31, 2024 and 2023:

	2024	2023
Net appreciation in fair value of investments	\$ 363,211,339	\$ 338,906,149
Investment income	31,745,510	29,983,477
Total	<u>\$ 394,956,849</u>	<u>\$ 368,889,626</u>

Accounting standards provide the framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include other significant observable inputs including:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 6. INVESTMENTS IN SEIU PENSION PLANS MASTER TRUST (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Trustees determine the fair value measurement policies and procedures, based on information provided by the Plan's custodian bank and investment advisors. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Short-term investments: Valued at amortized cost, which approximates value.

United States Government and government agency obligations: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate notes and bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2024:

	Master Trust Assets at Fair Value as of December 31, 2024			
	Total	Level 1	Level 2	Level 3
Short-term investments	\$ 48,238,639	\$ -	\$ 48,238,639	\$ -
United States Government and government agency obligations	140,726,873	-	140,726,873	-
Corporate notes and bonds	113,866,213	-	113,866,213	-
Common stock	1,414,801,679	1,409,265,173	-	5,536,506
Total assets in the fair value hierarchy	1,717,633,404	<u>\$ 1,409,265,173</u>	<u>\$ 302,831,725</u>	<u>\$ 5,536,506</u>
Investments measured at NAV*	1,935,395,769			
Investments at fair value	<u>\$ 3,653,029,173</u>			

NOTE 6. INVESTMENTS IN SEIU PENSION PLANS MASTER TRUST (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2023:

	Master Trust Assets at Fair Value as of December 31, 2023			
	Total	Level 1	Level 2	Level 3
Short-term investments	\$ 38,065,220	\$ -	\$ 38,065,220	\$ -
United States Government and government agency obligations	110,620,331	-	110,620,331	-
Corporate bonds and notes	82,636,723	-	82,636,723	-
Common stock	<u>1,254,208,229</u>	<u>1,249,590,313</u>	<u>-</u>	<u>4,617,916</u>
Total assets in the fair value hierarchy	1,485,530,503	<u>\$ 1,249,590,313</u>	<u>\$ 231,322,274</u>	<u>\$ 4,617,916</u>
Investments measured at NAV*	<u>1,819,410,798</u>			
Investments at fair value	<u>\$ 3,304,941,301</u>			

*In accordance with Accounting Standards Codification, investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table and the table on the preceding page are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For the years ended December 31, 2024 and 2023, there were no sales of investments whose value has been determined using significant unobservable inputs (Level 3).

Fair Value of Investments that Calculate Net Asset Value

The following tables summarize investments measured at fair value based on NAV's per share as of December 31, 2024 and 2023.

December 31, 2024	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 797,278,488	\$ -	Varies	Varies
Insurance company pooled separate account	100,269,342	-	Varies	Varies
Limited partnerships	946,084,795	72,885,496	Varies	Varies
Other pooled funds	<u>91,763,144</u>	<u>-</u>	Varies	Varies
Total	<u>\$ 1,935,395,769</u>	<u>\$ 72,885,496</u>		

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 829,117,310	\$ -	Varies	Varies
Insurance company pooled separate account	148,324,715	-	Varies	Varies
Limited partnerships	735,381,293	91,425,634	Varies	Varies
Other pooled funds	<u>106,587,480</u>	<u>-</u>	Varies	Varies
Total	<u>\$ 1,819,410,798</u>	<u>\$ 91,425,634</u>		

NOTE 6. INVESTMENTS IN SEIU PENSION PLANS MASTER TRUST (CONTINUED)

The investments in the common collective trust class are comprised of several investments. Underlying assets in these funds primarily include publicly traded equity securities and fixed income securities and are valued at their NAV calculated by the fund sponsor and have daily or monthly liquidity.

The investments in insurance company pooled separate accounts from insurance contracts seeks to capitalize on opportunities in the U.S. commercial real estate market through making loans to borrowers in connection with the acquisition, development or refinancing of commercial properties. This investment is valued based on the underlying portfolio of investments valued primarily through cash flow models and appraisals.

The investments in the limited partnerships class seek to achieve long term-growth of capital consistent with risk reduction through diversification. These investments are subject to various restrictions on redemption and frequency. The fair value of these investments is estimated based on the audited capital accounts and the Master Trust's respective ownership as reported by the investment manager.

The investment in the other pooled funds class is an investment in a manager that seeks to provide sound means to invest in a portfolio of high-quality, short-term construction loans secured by the projects being built. This investment is valued based on the underlying value of its portfolio.

NOTE 7. FUNDING POLICY

Contributions to the Plan are actuarially determined utilizing the projected unit credit actuarial cost method. Funding of the Plan is provided by employer contributions at the rate of 21% of covered payroll of participants for both years ended December 31, 2024 and 2023.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9. TRANSACTIONS WITH RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

The Plan pays certain administrative, investment and professional fees to various service providers. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

The Plan was allocated its share of salaries, payroll taxes, employee benefits and other administrative expenses paid by the SEIU National Industry Pension Plan - United States, an organization related to the Plan through common trustees. The Plan's share of these expenses for the years ended December 31, 2024 and 2023 was \$1,310,404 and \$1,350,802, respectively.

The Plan charged the SEIU Affiliates Officers and Employees Pension Plan - Canada a portion of common administrative expenses based upon the number of active participants. These allocated expenses amounted to 7.52% for 2024 and 8.00% for 2023 of the allocated administrative expenses. For the years ended December 31, 2024 and 2023, the Plan allocated administrative expenses to the SEIU Affiliates Officers and Employees Pension Plan - Canada of \$104,139 and \$93,181, respectively.

At December 31, 2024 and 2023, the Plan had receivables from/payables to related parties as summarized below:
